

NCCAP ADVANCED TECHNOLOGY CONTINUING EDUCATION FORM

Advanced Technology addresses the emerging continuing education format that activity professionals have available to them now and in the near future. This technology includes: Video, Satellite Broadcasting, Compressed Video, Internet, and other advanced technological resources. Pre-approval of these continuing education offerings will be required.

The sponsor of the session must complete the continuing education application as well as the advanced technology form. Instructional tools (video, home study, books, access to web site) used during the educational process must accompany the application. A copy of the mechanism used to evaluate comprehension of content must also accompany the application.

- **Applicant must also include (3) letters/evaluations from individuals who can verify the length in hours.**
